
Dream 100 AI Outreach — Prompting Guide

By Christian Bonnier | Client Ascension

Use this doc with Claude (claude.ai) to find prospects, research them, write hyper-personal outreach, and create Dream 100 deliverables in minutes.

HOW THIS WORKS

There are 4 prompts in this doc. Run them in order:

1. **PROMPT 0 — Find Your Dream 100 Prospects** → tells you exactly who to target and where to find them
2. **PROMPT 1 — Research the Prospect** → paste in the prospect's info and get a full intel brief
3. **PROMPT 2 — Write the Cold Email / DM** → turns the research into a hyper-personal outreach message
4. **PROMPT 3 — Create the Dream 100 Deliverable** → builds the actual asset to send after they reply

Each prompt builds on the last. Don't skip steps.

BEFORE YOU START — Know Your Offer Level

Level	What It Means	Example Offers	Strategy
Level 1	Prospect KNOWS they need this	Podcast placement, speaking gigs, book publishing	Direct CTA — go straight for the call
Level 2	Prospect needs it but doesn't know why yours	Cold email, ads, email marketing, YouTube content	Lead magnet + risk reversal
Level 3	Prospect doesn't think they need it	Web design, SEO, Facebook ads, IT	Free work deliverable upfront

Rule: The closer you are to Level 3, the more free work you lead with.

PROMPT 0 — FIND YOUR DREAM 100 PROSPECTS

Run this first. It tells you exactly who to target and where to find them.

None

You are a Dream 100 prospecting strategist. Your job is to help me build a targeted list of ideal prospects to reach out to.

Here is my business info:

- My service: [WHAT YOU DO]
- My offer level: [LEVEL 1 / 2 / 3]
- My ideal client: [DESCRIBE WHO YOU WANT TO WORK WITH – e.g. "e-commerce brand owners doing \$50k-\$500k/mo", "agency owners doing \$3k-\$10k/mo", "B2B SaaS founders"]
- My lead magnet: [FREE THING YOU'RE OFFERING]
- My best case study: [YOUR STRONGEST RESULT – e.g. "helped X go from \$2k to \$93k/mo"]
- Niches I want to target: [LIST ANY SPECIFIC NICHES – or say "suggest some for me"]

Do the following:

1. DEFINE MY DREAM 100 CRITERIA

- What does my ideal prospect look like? (revenue range, team size, content activity, platform presence, engagement level)
- What signals tell me someone is a QUALIFIED prospect vs a waste of time?
- What are 3 red flags that disqualify someone immediately?

2. SUGGEST WHERE TO FIND THEM

For each of the following platforms, tell me exactly how to find qualified prospects:

- LinkedIn (search filters, company pages, post engagement, etc.)
- Instagram (competitor followings, hashtags, "For You" lists, tagged posts)
- Twitter/X (lists, threads, engagement on competitor accounts)
- Podcasts (shows in my niche, recent guests who match my ICP)
- Newsletters (Substack, Beehiiv – writers in my niche)
- YouTube (channels in my niche, comment sections)
- Communities (Facebook Groups, Slack groups, Discord servers, Skool)

3. BUILD ME A SCORING SYSTEM

Create a simple 1-10 scoring rubric I can use to prioritize prospects.

Include factors like: audience size, content activity, offer alignment, engagement rate, and likelihood to need my service.

4. OUTPUT A SAMPLE PROSPECT LIST

Based on my ICP above, give me 10 example types of prospects I should be targeting

(real or hypothetical). For each one include:

- Type of business/person
- Why they're a good fit for my offer
- Where I'd likely find them
- What my hook angle might be

PROMPT 1 — RESEARCH THE PROSPECT

Once you have your prospect list, run this for each person you want to reach out to.

None

You are a world-class sales researcher. Your job is to build a complete intelligence brief on a prospect I want to reach out to.

Here is the prospect's info:

- Name: [FULL NAME]
- Company: [COMPANY NAME]
- Role: [THEIR TITLE / ROLE]
- Email: [EMAIL IF YOU HAVE IT]
- LinkedIn: [LINKEDIN URL]
- Website: [COMPANY WEBSITE]
- Any other links (podcast, YouTube, Twitter/X, Instagram): [ADD ANY]

Search everything publicly available on this person. I need you to find:

1. ONE specific, impressive, verifiable achievement or public statement they've made
(a LinkedIn post, podcast quote, case study result, revenue milestone, etc.) –
this will be the hook for my outreach
2. Their current offer / what they sell
3. Who their target customer is
4. Any pain points, bottlenecks, or problems they've publicly talked about
5. Their content style and tone (how do they talk – casual, formal, data-driven, story-driven?)
6. Any recent news, launches, or announcements about them or their company

Format your output as:

- BEST HOOK: (the one thing I'll open my email with – be specific, include the quote or stat)

- OFFER SUMMARY: (what they sell in 2 sentences)
- ICP: (who their ideal customer is)
- PAIN POINTS: (what problems they've talked about publicly)
- TONE/STYLE: (how they communicate)
- RECENT NEWS: (anything notable happening with them right now)
- OUTREACH ANGLE: (your recommended angle for my cold email based on all of the above)

PROMPT 2 — WRITE THE COLD EMAIL / DM

After running Prompt 1, paste the research brief into this prompt along with your offer details.

None

You are an expert cold email copywriter trained on the Dream 100 outreach method.

Here is the research brief on my prospect:
[PASTE OUTPUT FROM PROMPT 1 HERE]

Here is my offer:

- My service: [WHAT YOU DO]
- My lead magnet: [FREE THING YOU'RE OFFERING – e.g. "50 free leads", "a sample script", "a free homepage mockup", "a free video"]
- My offer level: [LEVEL 1 / 2 / 3]
- My best case study or result: [E.G. "helped X go from \$2k to \$93k/mo in under a year"]

Now write me THREE versions of a cold outreach message:

VERSION 1 – Cold Email

- Lowercase subject line (2-4 words, question or curiosity-based)
- 3-5 sentences max

- Open with the BEST HOOK from the research – make it feel like I did my homework,
 - not like a compliment
- Reference my lead magnet naturally in the body
- End with a soft "mind if I share it?" CTA – the ONLY goal is to get them to raise
 - their hand
- No fluff, no formal language, write like a peer texting a peer

VERSION 2 – Instagram / LinkedIn DM

- 2-4 sentences max
- Even more casual than the email
- Same hook, same lead magnet, same CTA
- Could open with a genuine observation about their content or a recent post

VERSION 3 – Voice Note / Loom Script

- 30-45 second spoken script
- Open with the hook
- Explain the lead magnet in one sentence
- End with the CTA
- Write it exactly how you'd say it out loud – no formal language

Rules for all three versions:

- NEVER use the word "I" to start a sentence
- NO corporate buzzwords (synergy, leverage, robust, etc.)
- NO compliments that could apply to anyone ("love your work", "big fan")
- The hook must be SPECIFIC – a real stat, quote, or post they made
- The lead magnet must be mentioned – never pitch a call as the first ask

PROMPT 3 — CREATE THE DREAM 100 DELIVERABLE

Use this AFTER they reply positively. This builds the actual asset to send after they reply.

None

You are an expert [INSERT YOUR SERVICE – e.g. "YouTube scriptwriter / cold email strategist / web designer / email marketer"].

A prospect just replied positively to my outreach. They are interested in seeing the lead magnet I promised them.

Here is everything I know about them:
[PASTE THE RESEARCH BRIEF FROM PROMPT 1]

Here is what I promised to send them:
[DESCRIBE YOUR LEAD MAGNET – e.g. "a sample YouTube script in their voice", "a cold email campaign written for their business", "a homepage mockup", "a 5-email welcome sequence"]

Now build the actual deliverable. Make it:

1. Specific to THEM – use their brand name, their audience, their offer, their tone
2. Immediately usable – they should be able to implement it with zero extra work
3. Impressive enough that they feel they NEED to get on a call to get more of this
4. Finished, not a template – no [brackets] or placeholders in the final output

Also include at the end:

- A short follow-up message I can send WITH the deliverable (2-3 sentences max)
- One sentence explaining why this deliverable will work for their specific business

THE 3-STEP FOLLOW-UP SEQUENCE

Email 1 (Day 1) — Original outreach (*Your message from Prompt 2*)

Email 2 (Day 3)

still have [LEAD MAGNET] pulled up for you. mind if i send it over?

Email 3 (Day 7)

last follow up on this — [LEAD MAGNET] is ready to go whenever you are. worth a look?

Rule: Same message, three times. Don't add more info. Don't apologize for following up. Don't change the offer.

QUICK REFERENCE — OFFER ANCHORING

✗ "We help businesses grow their YouTube channel" — not anchored to anything

✓ "We can get you 1 video a week — scripted, edited, posted" — anchored to a deliverable

✓ "I put together a sample YouTube script for you in your voice" — anchored to a lead magnet

✓ "We helped [Name] go from 0 to \$43k in clients from YouTube in 2 months" — anchored to a case study

✓ "I put together a sample script AND a list of 10 video topics for your audience" — anchored to lead magnet + specificity

EXAMPLE — FULL RUN-THROUGH

Prospect: Daniel Fazio — Co-Founder, Client Ascension + ListKit **Offer:** Organic YouTube content (1 video/week, scripted, edited, posted) **Offer Level:** Level 2

RESEARCH HOOK IDENTIFIED: Daniel publicly posted he signed \$43k in clients from YouTube in 2 months — off just 500–1,500 daily views.

COLD EMAIL OUTPUT:

Subject: quick question

saw your linkedin post where you mentioned signing \$43k in clients from youtube in just 2 months — off 500-1,500 daily views.

that's an insane ROI for a channel that size.

i put together a sample youtube script for you — "the exact cold email that took me from \$0 to \$100k/mo" — written in your voice, based on your story.

if you like it, all you have to do is record. we'll handle scripting, editing, and posting every week.

mind if i share the script here?

DELIVERABLE CREATED: Full YouTube script written in Daniel's voice, structured with hook → problem → breakthrough → formula → CTA, ready to record.

TIPS FOR YOUR STUDENTS

- **You don't need to know everything about the prospect before you start.** Just drop their LinkedIn URL and website into Prompt 1 and let Claude do the research.
 - **The lead magnet doesn't have to exist yet.** Only build it if they reply. This saves you hours of wasted effort.
 - **The hook is everything.** If you can't find one specific, impressive, verifiable thing — dig deeper. Check LinkedIn posts, podcast appearances, YouTube comments, and their blog.
 - **Don't overcomplicate the CTA.** "Mind if I share it here?" is enough. The only goal of the first message is to get them to raise their hand.
 - **Match the tone to the platform.** DMs are more casual than emails. Voice notes are even more casual than DMs. Looms sit in between.
 - **Volume is a vanity metric.** 10 hyper-personalized messages will always outperform 500 generic ones. Use the scoring system from Prompt 0 to stay focused on the right people.
-
